## RANDOM REFERENCES

WANTED—Clean white rags at the Standard.

Mrs. M. S. Cooper and daughter Florence of Salt Lake City are in Ogden visiting at the home of Mr. and Mrs. W. E. Lindquist, 3318 Washington avenue.

Advertisers must have their copy for the Evening Standard the evening before the day on which the advertisement is to appear, in order to insure publication.

Suits Started—The Pingree National bank has started suit to recover on promissory notes the sums mentioned from the following persons: J. E. Dennis and others, of Marysville, \$100; James M. Bolitho and J. B. Williams, \$50; James Stokes, \$100; James Bolitho and James Watson, \$50; James Bolitho and Sidney Black, \$50.

Dr. and Mrs. J. M. Greer of De Moines, Iowa, are visiting Mrs. Greer's parents, Mr. and Mrs. O. D. Rasmussen, of this city.

Gould Official in City—E. T. Jeffrey, chairman of the board of directors of the various Gould railroads passed through the city last night, accompanied by a party of friends, in his private car on their way to Yellowstone Park. Mr. Jeffrey is the financial head of the Denver & Rio Grande and as such made the building of the Western Pacific to the Pacific coast possible, for it was through his efforts that the last \$50,000,000 was raised which was necessary to complete the road.

Mrs. Robert Paine and daughter Miss Dora went yesterday morning to visit Horace Drake, an uncle of Mr. Paine, an old pioneer of '47, who was reported to be sick. They found him much improved and returned home last night.

Jean Amorum and his paramour, Anna Lolouchi, who were arrested for deportation to France, as being undesirable citizens were turned over to the United States immigration officers by the police.

## CONDITIONS WILL SOON BECOME NORMAL

LONDON, Aug. 20.—Railway men throughout the kingdom are returning to work and it is hoped that the next few days will see normal conditions.

Following the announcement Saturday that the railway managers and their employees had appointed a committee to settle their difficulties, came the news that the men are ready to return to work.

No riots was reported as a result of labor troubles except at Dublin, where the police and constables came into collision with a mob which was in sympathy with striking newsboys who were endeavoring to prevent the distribution of newspapers.

Several shops were looted. The railway workers held meetings throughout the country today to celebrate what they termed a victory over the railway companies.

With the exception of 4,000 men of the Northeastern Railway company, which was not a party to the settlement agreement and a thousand Manchester men, all stations passed resolutions in favor of a resumption of work. The Northeastern company's employees demand an eight-hour day and two shillings weekly advance in wages with a minimum wage of 22 shillings, about \$5.50.

Although service on the other lines has not been completely restored, the men in most cases presented themselves for duty today, and a start was made toward remedying the disorder caused by the strike. During the day the lines were partially cleared of freight trains, but it will be several days before normal conditions are restored.

Because of the telegraph blockade, the manifesto of the strike leaders, calling on the men to return to work did not reach some points until this morning and during the night there were disturbances at numerous places. With the exception of Llanelli, Wales, however, there was no serious riot.

At Llanelli the death list as a result of the disturbances of yesterday and last night, but due chiefly to an explosion in the freight shed, which the mob set on fire, reached twelve. Three of these were shot by the troops yesterday morning. The police believe that the explosion was caused by a box of cartridges, looted from the troop train and thrown into the fire.

Many persons were seriously injured by the explosion and are in the hospitals. Eight thousand troops remained at Llanelli, but today the town was quiet. The officer in command says that rowdies and not strikers were responsible for the rioting.

Strike Situation Brighter. The prospects for a settlement of the Liverpool dock strike are brighter tonight, as the ship owners have agreed to meet representatives of the men when they all return to work. While the strike committee has ordered the men not to return to work pending the result of the negotiations, Tom Mann, the leader of the strike, said he had reason to believe that he would get a joint meeting of the ship owners and men tomorrow. He was hopeful there would be a settlement and declared it probable the dockers would be back at work Wednesday.

The steamers Celtic and Caronia both sailed from Liverpool this afternoon with a full passenger list, while more passengers are waiting there at Queenstown. The Philadelphia called at Queenstown today and took the mail and many passengers. The Carmarthen landed her passengers and crew at Plymouth.

A meeting of forty thousand trades unionists of London was held at Hyde park this afternoon. Labor leaders congratulated the railway men on their victory and a resolution, which was read from numerous platforms, pointed out that for the first time in history the companies had recognized the principle of collective bargaining, thereby conceding what always has been a vital principle of trades unionists.

While not accepting the terms of the agreement between the employers and the men as a final settlement of the latter's demands, the resolution concluded that the men had decided to return to work and trust to the companies to live up to the spirit and letter of the agreement.

The strike leaders, in a manifesto asking the men to accept the agreement, pointed out that the companies have agreed to abide by the findings of the commission, even if it recommends recognition of their union.

"We have no hesitation in saying," the manifesto declares, "that in addition to having obtained recognition in negotiating the present dispute, our evidence before the commission has been such that it justifies us in saying that before many weeks the railway workers will have won the charter long enjoyed by every other class in the community."

ANACONDA, Aug. 20.—As a result of the visit of officers of the Butte Jockey club to the Deer Lodge county racetrack it was decided that the grandstand and other buildings destroyed in this morning's fire, can be replaced in time for the fourteen-day race meeting which opens here next Friday. A force of carpenters will be put at work tomorrow morning and temporary structures will be erected. The fact that the stables are still standing had much to do with the decision of the racing officials to pull off the meeting as scheduled.

The officials are of the opinion that other sparks from a tramp's pipe or incendiaryism caused the blaze. According to the park watchman, he passed the building an hour before the fire was discovered and detected no signs of smoke.

## EAGLE DELEGATES WERE IN OGDEN

Beginning Saturday evening and at intervals all day Sunday, special trains passed through Ogden, containing large delegations of members of the Fraternal Order of Eagles, from all parts of the eastern, southern, and middle west states.

They only made a short stay here, as arrangements had been previously made by Salt Lake to entertain them for a great part of the day. As each delegation arrived here they were met at the depot by representatives from the City of the Saints, and piloted direct there.

## \$100 REWARD

For Evidence of Violation of Liquor Laws.

Whereas, it has been reported that liquor is being sold by some saloon keepers in basements and other secret and hidden places after 9 o'clock p. m., and further that whiskey is sold in coffee cups and beer in tea pots in certain restaurants after 9 o'clock p. m., and also on Sundays.

Therefore, William H. Glasmann, Mayor of Ogden, Utah, by the power in me vested in accordance with section 527 Revised Ordinances of Ogden City, 1910, do hereby offer a reward of \$100 for evidence that will lead to the conviction of any party for the violation of the ordinances of Ogden City in reference to closing of saloons and the prohibition of the sale of liquor after 9 o'clock p. m. and on Sundays.

WM. GLASMANN, Mayor.

Dated Aug. 9, 1911.

## BIG LAND DEAL HAS BEEN CLOSED

H. S. Daynes and John W. Taylor, of Farmington and Salt Lake, will conclude today with the Buckhorn irrigated lands company one of the largest sales of irrigated land ever known in Utah. The price which will be paid will exceed \$500,000.

The property in question—2,300 acres of newly irrigated land—is located about twelve miles south-east of Price, Utah, and is one of the first projects taken under the Carey land act. The land was State property which Messrs Taylor and Daynes took up under a bonded contract of \$50,000 to put water on the property by means of reservoirs and cement conduits and canals within two years from entry. Since the water system has been installed the value of the land has jumped from \$125 an acre to \$125.

By this same act settlers can take up certain amounts of acreage in blocks of 20, 40 and 100 acres paying for the same at one-eighth down and one-tenth a year for a period of ten years. They then prove entry and fulfillment of conditions and the property becomes theirs by a clear title from the State and the promoters of the irrigation scheme.

The deal will be closed this morning at the office of the National Bond and Savings company at Salt Lake, by the president and manager—Mr. Ziegler—of the new incorporation, and Messrs Taylor and Daynes.

Mr. Taylor was formerly an apostle of the Mormon church, but withdrew from membership some time ago, and Mr. Daynes is the manager of the Rock Creek farm at Farmington and is heavily interested in business affairs in Zion City.

FOREST FIRE NEAR YELLOWSTONE

LIVINGSTON, Mont., Aug. 20.—A large forest fire which broke out on Pole Creek near Jadine sixty miles south of here on the edge of Yellowstone Park yesterday, was reported here today. The fire is spreading rapidly and has already done a large amount of damage. Forest Assistant Bedford, with a large force of fire fighters left here this afternoon. The section where the flames are raging is in a wilderness and information regarding the advance of the flames is meager. Several hundred acres of pine have already been destroyed, according to reports late today. A small forest fire in Yellowstone Park was also reported here today. Soldiers from Fort Yellowstone are fighting the flames and are reported to have it nearly under control. The fire in the park is in an untraveled region and will not interfere with park travel.

Reciprocity Campaign Issue

TORONTO, Aug. 20.—The election campaign has gained full headway throughout Ontario, the great industrial province of Canada, by the visit of Sir Wilfrid Laurier, the premier, and R. L. Borden, the opposition leader. On all sides it is now recognized that reciprocity is the issue.

Although the election has been sprung suddenly more than 100 conventions were held last week and rival candidates were named in nearly every constituency.

Hon. William Patterson, minister of customs, one of the commissioners who negotiated the reciprocity agreement with Washington, has been re-nominated in Brant. Although he has held the seat for forty years a special effort will be made by the conservatives to defeat him.

The annexation speeches in the American congress are being made the most of by the conservative party and hundreds of thousands of pamphlets containing extracts therefrom, have been distributed.

ENTRY RECORDS BROKEN FOR REEDVILLE MEET

BOSTON, Aug. 20.—The greatest number of entries in several years has been made for the grand circuit meeting at Reedville this week. The chief event will be the trotting derby on Thursday.

## TAFT PLANS SIX WEEKS' WESTERN TOUR

WASHINGTON, Aug. 20.—Plans for President Taft's trip through the west and the Pacific coast practically were completed today. The journey will be almost as extensive as that taken by the President on his famous "swing around the circuit" in 1909, when he traveled more than 13,000 miles and visited 33 states.

He will break ground for the Panama canal exposition at San Francisco, make scores of addresses and attempt to scale the 14,000 feet of Mount Rainier's slopes.

According to the present arrangement the president will be gone six weeks. The Republican leaders look upon the trip as the most important politically that the president has made since he entered the White house. He will go through all the states in the west in which they recognize the domination of the progressive Republicans, who are counted on to oppose his re-nomination next year.

With adjournment of congress assured for this week, the president feels that he can get three weeks' rest at Beverly and be in trim then to stand the hard grind of forty days in a private car.

The president probably will leave Beverly September 17, returning east about November 1. He will go west through Iowa, Kansas, Nebraska, Colorado, Utah and Nevada to the coast. Most of the big cities in these states will be visited.

From California he will go to Portland and Seattle. On the way eastward he will stop in Idaho, Montana, the Dakotas and Minnesota.

While no "rebuffers" are to be taken along, it is probable that members of the cabinet or congressmen will become traveling companions of the president at various points en route.

HEALTH BOARD ISSUES BULLETIN

The following bulletin has been issued by the Utah State Board of Health:

SALT LAKE CITY, Aug. 19, 1911.

SCHOOL INSPECTION.

Health officers are reminded of the importance of a careful sanitary inspection of school premises within their jurisdiction before the opening of schools and the correction of any existing conditions dangerous to the health of pupils.

Where the source of water is a surface well, it should be examined and if found in unsanitary condition, thoroughly cleaned.

All outdoors within 200 feet of a well should be removed. The law requiring the use of dry earth closets on school premises should be enforced.

The very large reduction (75 per cent) in the typhoid rate during July compared with that of the corresponding month of last year is gratifying and should encourage health officers to persist in a determined effort to eradicate this unnecessary and dangerous disease from the State. There can be no reasonable doubt that much of its diminished prevalence is to be attributed to the increased activity of the health forces of the state in the enforcement of preventative measures. Every case of typhoid fever should be kept under strict observation and the regulations set forth in the typhoid circular, a supply of which will be furnished upon application to the State Board of Health, should be rigidly carried out. A copy of the circular should be sent to every family in which a case of the disease occurs. It is particularly important at this season to exclude flies, and to boil water which is at all suspicious of contamination. In the event of an unusual prevalence of the disease in any locality, the health officer is requested to at once report the fact to the State Board of Health.

Upon the request of the local health officer or other authorities, the Sanitary Inspector of the State Board of Health will visit any town or State for the purpose of rendering assistance.

## HEALTH REPORT BOOST FOR WEBER

The Utah State Board of Health has just issued its monthly bulletin for July, 1911, and gives the statistics for Weber county as follows: Estimated population, 35,779; total deaths, 26; deaths not reported previous month, none; districts reporting no deaths, 5; total number of towns and districts reporting, 8; localities free from contagious disease, 1; scarlet fever cases, 10; deaths, 1; small-pox, 2; diphtheria, and membranous croup, 2; deaths, 1; typhoid fever none; whooping cough, none; measles, 10; deaths, 1; chicken-pox, 10; pneumonia, 2; deaths, tuberculosis, 2 deaths.

The above report of this county indicates a healthy condition existing and the residents are co-operating with the authorities in every sanitary measure to prevent the spread of disease and keep the death roll to a minimum. The officers and physicians of the county are aiding the board in keeping tab on every case that comes under their observation.

PARENTS RECOVER LOST DAUGHTER

The little girl who was found wandering on the streets late Saturday evening by Officer Herrick was turned over to her anxious parents, Bishop and Mrs. Waymont of Warren, yesterday afternoon.

It was at the grandmother's request that the child be allowed to go with her to her home at Plain City that the parents gave the girl into her custody, but as they were about to board the car the little girl ran away and the grandmother, paying no attention, went to her home, believing that the child had returned to her parents. They were also under the impression that the child was safe with its grandmother, and were amazed early yesterday morning when they telephoned to Plain City to learn that the child was not there.

Immediately the father got into communication with the police and sheriff's office and soon learned that his little one was in safe custody. He called for her as soon as he could and thanked Sergeant Anderson and his wife for their kindness to the child.

OGDEN MAN HERO AT SALT LAKE BEACH

Eugene G. Freeman, a newcomer to Ogden from Auburn, Nebraska, while bathing at Salt Lake yesterday afternoon saved the life of an unknown young lady, who narrowly escaped drowning in the Great Salt Lake.

It appears that the young lady got beyond her depth and in her struggles to reach a place of safety, attempted to head to get under the treacherous water and was nearly strangled. Freeman, seeing her predicament, went to her rescue and brought her ashore, where restoratives were applied and she was brought to a condition when she could be safely taken to her home.

The life-saver received the thanks of her friends for his gallant rescue, which he performed in spite of the fact that he at one time was in danger himself.

PLAIN CITY TRIMS ALL-STAR TEAM

PLAIN CITY, Aug. 20.—The Plain City baseball team came off with colors flying in their contest with the all-star team from the Deep Creek league, at Lagoona on Friday. The game was played before a well-filled grandstand in which sympathizers with either team vied with each other in uproarious approval of the playing of their favorites.

Purriett, of Slaterville, graced the mound for the entire aggregation, and his twirling in the first netted Plain City a goose egg to the joy unrestrained of Slaterville, while Singleton, the Plain City pitcher, suffered the stars to score one in this inning. The second brought the same result for both sides, nothing for Plain City and one for the stars, whereat Jack Slater did violence to his vocal organs.
